

3.2.2.3.3.2 Solidarity is for losers

A young attractive female, if she handles it right, has the chance to accumulate enough wealth to last a lifetime, and to possess an advantageous nationality as well. She just doesn't have to believe the love-forever nonsense of poor men. Instead, she ought to aim for sufficiently wealthy men, even if those are married. No sympathy with current wives. Solidarity is for losers.

Once a woman has accumulated enough wealth, she can enjoy the love of attractive young men. Just never surrender your wealth to marriage impostors. Not even to husbands.
